

CAMELOT

Camelot Subdivision

Checklist for Application for: **In-ground Pools**

- ___ Drawings and specifications of the pool are provided (manufacturer's specifications or brochure should be submitted if it usually has this information).
- ___ A site plan indicating landscaping or screening materials is provided.
- ___ If applicable, retaining walls and details are clearly noted on the plans.
- ___ Pool drainage is indicated and does not drain onto common areas or neighboring lots.
- ___ Pool pumps and filtering equipment is screened from view with landscaping.
- ___ Pool fencing is indicated to be built of wood, wrought iron, or PVC, (aluminum fencing that looks like wrought iron) and is at least 4' tall but does not exceed 6'. An elevation of the fence section, indicating the color of the fence, is provided.
- ___ Any change in grading that effects the flow of water towards a neighboring lot is clearly indicated and adheres to St. Charles County codes.
